PACHECO.

We have no idea that the Democrats will count out Pacheco this time. Last time he was only elected by one majority, and a Democratic Supreme Court awarded him his certificate. This year he has a plurality of 2,500, but that is not much to overcome if they wanted to very badly.

THE FIRST AMERICAN ANTI-SLAVERY SOCIETY.

Mr. Oliver Johnson, the venerable anti-slavery lecturer, is contributing to the New York Tribune a series of articles on "The Fall of Slavery," which are exceedingly interesting to the old friends of emancipation. The eighth paper gives a history of the first anti-slavery society formed in this country, which was in the city of Boston, on the 13th of November, 1831, at the office of Samuel E. Sewell, in State street. David Lee Child, editor of the Massachusetts Journal, presided, and this preamble, written by Wm. J. Snelling, was adopted:

We, the undersigned, hold that every person, of full age and sane mind, has a right to immediate freedom from personal bondage of whatsoever kind, unless imposed by sentence of the law for the commission of some crime. We hold that man cannot, consistently with reason, religion and the eternal and immutable principles of justice, be the property of man. We hold that whoever retains his fellow-man in bondage is guilty of a grievous wrong. We hold that mere difference of complexion is no reason why any man should be deprived of any of his natural rights, or subjected to any political disability. While we advance these opinions as the principles on which we intend to act, we declare that we will not operate on the existing relations of society by other than peaceful and lawful means and that we will give no countenance to violence or insurrection. (Signed,) W. Lloyd Garrison, Moses Thacker, Oliver Johnson, Joshua Coffin, Robert B. Hall, S. R. Newcombe, Arnold Buffum, Benj. C. Bacon, Wm. J. Snelling, Isaac Knapp, John E. Faller, Henry K. Stockton, Samuel E. Sewell.

Of these pioneers in one of the greatest moral and political revolutions of any age, only one remains, the youngest one, and him the writer of the articles above referred to—Oliver Johnson.

Representative Heilman, of Indiana, thinks the majority of the Republicans in that State are for Mr. Sherman for the Presidency. He predicts a Republican victory there in 1880.

LUCKY MEN.

The result of the election in California will give especial prominence to Senator Booth and Gen. Jno. F. Miller, and will contribute greatly to further their political aspirations. Booth will be apt to have the California delegation to the National Convention to push his claims for the nomination for Vice President. Gen. Miller will be the leading candidate for Booth's place in the Senate. He is a staunch Republican, and the honors could not be more worthily bestowed. His speech in the Constitutional Convention on the Chinese question was by far the ablest ever made on that subject. All the Senators elected this year have a vote for Senator. Next year there will only be Assemblymen to elect, and it being a Presidential year there is no doubt but that the Republicans will be able to elect the Senator.

THE FLORIDA CANAL.

Ex-Senator Conover, of Florida, says that Governor Drew and the other State authorities have under consideration the request to convene the State Legislature of Florida in extra session, for the purpose of considering the proposals made by the New York capitalists for a grant or charter for a ship canal across the State. The only question now is whether the act of incorporation asked by the projectors of the canal cannot be granted under the law authorizing the granting of a charter to parties wishing to form a company for business purposes. It is understood that the leaders of the scheme are satisfied that it would be useless to ask for exemption from taxation, but they are not convinced that a general act granting the right of way would be satisfactory to the capitalists who are anxious to invest in the enterprise. It is therefore urged that a special session of the Legislature ought to be convened in order to give direct authority to carry out the purposes intended in the formation of the canal company and to assure those willing to invest that the enterprise has the unqualified sanction of the State of Florida. Mr. Conover says that outside of the leading business men of the State, but little is said of the project by the people, though pains have been taken to acquaint them with its importance and the value it will be to the State. Ex-Senator Yulee was there a few days ago, and declined to talk on the subject. It is believed, though, that he is strongly opposed to it, as his interests are said to be solely with the railroads of the State, and that the canal, if constructed, would interfere with his business projects. There are other representatives of railroad interests in Florida who are known to be opposed to granting any concessions of a liberal character to the canal company. Mr. Conover says that this opposition will hardly be able to effect anything in case the Legislature is convened, as the project has been talked of for years and the surveys made by the engineer corps are all favorable to the plan of the capitalists. In view of every contingency which might arise he thinks it advisable for the Governor to call an extra session of the Legislature and has no doubt it will be done when the proposition of Messrs. Aspinwall, McMahon and others is better understood. The Secretary of War gives assurances of the aid of the Government in promoting the work, and as evidence of this reference is made to the appropriation secured in the Forty-fifth Congress to complete the work of the survey, which was in continuation of the labor of Senator Conover who made the subject a special matter throughout his Senatorial term.

UNEMPLOYED MINERS.—The Tuscarora Times-Review contains the following warning: Nearly every day brings additions to our unemployed population. Miners, hearing that a number of mines here are producing considerable bullion, conceive the idea that there must be a proportionate demand for underground hands, while the truth of the matter is there are more than a hundred experienced miners here already, who are unable to obtain work. There are not as many men employed in the district as there were one month ago, and there is no prospect of the demand being increased for some time to come.

Texas under the new census will—ex-Governor Hubbard, of that State, thinks—run up to 3,000,000, in population. It should, he believes, have twenty-two members of Congress.

Mr. Beecher thinks the Southern people are behaving better now than at any time since the war. When the present generation, he says, has passed away there will be no further trouble.

THE PARADISE MINES.—The "Silver State" says the working force in the Paradise mines is at least double what it was six weeks ago, and there are now about 150 men employed in the district.

The Elko "Post" has entered upon its sixth year. The "Post" has always been conducted with ability and the Journal hopes it may continue to prosper.

CAPTAIN GENERAL OF THE ARMY.

The Proposition to Reward General Grant for His Past Services.

A Herald correspondent furnished the annexed account of the scheme to make a new office for Grant. It is interesting reading, if nothing else:

Since the adjournment of Congress a number of General Grant's friends have had under consideration a suggestion, coming originally from a distinguished Southern soldier whose name is withheld for the present, but whose services in military and civil life have won for him the confidence and esteem of his people, as well as the respect of the country at large, to create the office of Captain General of the army, with suitable pay and allowances, and to have the same tendered to General U. S. Grant in recognition of his patriotic services in behalf of the Union, as well as to afford him permanent occupation in a congenial employment the remainder of his life. This idea has been quietly canvassed among the members of the Senate and House who have visited Washington during the recess, as well as Saratoga, Newport, Long Branch and White Sulphur Springs. It can be said that the proposition has been received with great favor, and will take shape in a bill accomplishing the purposes named early at the next session of Congress.

These friends of General Grant have viewed with great regret the efforts of politicians to embark him once more on the muddy stream of politics, and have been casting about for some suitable employment and position for the distinguished ex-President. This proposition has been prematurely developed in consequence of the recent announcement that General Grant was willing to accept the presidency of the Nicaraguan Canal Company. His friends are of the opinion that the position of Commander-in-Chief of the army of the United States would be much more acceptable to him if it could be gracefully tendered by Congress, since it would restore him to the rank he was taken from almost forcibly by the politicians of 1868, and which sacrifice he has frequently had occasion to regret.

It is understood that quite a number of distinguished Southern men have not only warmly espoused this proposition, but in fact, the leaders of the movement in both Houses are representative Southern statesmen. It can be said also in this connection that no one in public life whose name has been associated with the Republican nomination for the Presidency has been approached on the subject, and the proposition will doubtless be heard by them with great surprise. Inasmuch as those who are in the confidence of the leaders of the movement have deemed it proper to make known at this time their intention, it is no longer a secret that the idea originated and has been fostered as the best answer the South can make to the clamor that calls for Grant. It will be remembered that on the proposition to pension General Shields in the Forty-fifth Congress, an amendment was offered in the Senate to add the name of General Grant, which was voted for by quite a number of the Southern Senators. The amendment was adopted, but the whole bill was subsequently lost in a conflict between the two Houses. Then, however, the Senate had a Republican majority. Now, the regular session of the Forty-sixth Congress will contain a Democratic majority in both branches, so that the proposition to add to General Grant's honors will be a Democratic measure, and will, it is believed by its promoters, be the grandest challenge that any political party has ever given to its adversaries.

The present law recognizes four grades in the rank of General. These are—first, General; second, Lieutenant General; third, Major General, and fourth, Brigadier General. It will be observed that the prefix is purely arbitrary and simply distinctive. Therefore, it is in the power of Congress in creating the office of Captain General to define its powers and responsibilities.

THE REMOVAL OF THE STATE UNIVERSITY.

The Bodie News has the following to say about the State University:

Governor Bradley, of Nevada, now deceased, was probably as honest a politician as the Pacific Coast has produced. His apparently honest and straightforward course gained for him the sobriquet of "Honest Old Brand-horns," and yet even this good old man was sometimes governed by a desire to benefit certain localities at the expense of great State interests. This was especially the case in the location of the State University of Nevada at Elko, a small railroad town, a station on the Central Pacific Railroad, several hundred miles from the thickly populated parts of the State, and reached only at large expense. Being in the eastern part of the State, while the great mass of the population is in Storey, Lyon, Ormsby and Washoe counties in the western portion, it of course debarred that locality from receiving any educational benefits from the State University, as the expense of reaching Elko is greater than that of reaching the San Jose Normal School, the Napa University, or any of the collegiate institutions of California. The result has been that from ten to twenty pupils have received the advantages of education at the State University at Elko, at an average expense to the State of about \$1,000 per annum for each pupil, whilst with the same institution placed in Reno not less than 200 scholars annually would have received educational benefits from it. Of course the honest old man desired to place the school where it would benefit the largest section of country, rather than the greatest number of pupils, and so signed the bill locating it on the deserts of the Humboldt. It is to be hoped that Governor Kinkaid will take a practical view of the matter, and see to it that this gross outrage upon the interests of the State be effectually remedied, and that political consideration be cast entirely aside in considering its removal to Reno, the most convenient and eligible site in the State for its location.

BRODERICK'S DUEL.

The statement made editorially in the New York Times to the effect that Terry took advantage of Broderick in their famous duel, leads the editor of the Helena (Montana) Independent, who seems to be conversant with all the facts, to say:

Previous to the duel it was the boast of Broderick's friends that he was the best shot in the State. He could ring the bell eleven times out of twelve in practicing at the shooting gallery. With the exception of Dr. Ayllette, the resident physician of the insane asylum at Stockton, Judge Terry was the best shot in the State with a shotgun, but he never carried or practiced with a pistol. So far as being an old duellist was concerned, Broderick and he were on equal footing, both having fought one duel previous to the encounter that resulted in Broderick's death. In Broderick's first duel he wore a watch—contrary to the code—and the ball of his opponent lodged in it and thereby saved his life. The circumstances of the duel are substantially these: At a hotel in Sacramento Broderick made the remark that Judge Terry had accepted a bribe in a certain case in the Supreme Court. D. W. Perley, an attorney in the case, denied the charge point blank. Broderick, who was a powerful man, deliberately reached across the table and tweaked Perley's nose. The latter, being a small man, had to submit to the indignity at the time, but subsequently challenged Broderick to fight. This challenge was not accepted on the ground that Perley "was not a gentleman." Judge Terry then resigned his seat on the Supreme Bench and went to San Francisco and challenged Broderick. A duel ensued, which resulted disastrously to Broderick. It has often been asserted by the friends of the unfortunate individual that the duel was not fair; that Terry took snap judgment on his opponent by withholding his fire. The writer has heard Hon. Joseph C. McKibbin, who had represented California in Congress, and who was Broderick's second, say that it was as fair a duel as ever was fought.

COMING-HOYT LIDEL SUIT.—The Sentinel says: About fifty subpoenas have been issued for witnesses on the part of the defense in the above suit. Among the number whose presence is desired are John W. Mackay, James G. Fair, the Auditor of the Virginia and Truckee Railroad, who is ordered to produce the books of the company; Col. Pete Canavan, who is expected to testify that he paid Comins \$1,000 for cocktails before breakfast, and many other distinguished gentlemen throughout the State. The trial is in November, and Judge Lansing will represent the prosecution and Bishop & Sabin the defense.

Mrs. Partington, in illustration of the proverb, "A soft answer turneth away wrath," says that "It is better to speak parenthetically of a person than to be all the time flinging epithets at him."

Personal.

Arthur McEwen, editor of the Virginia Chronicle, called to see us on Sunday. He reports the Powning boom still rising.

Senator Jones, D. O. Mills, C. C. Stevenson, I. L. Regus, Jasper Babcock and other notables went below Sunday night.

E. A. Littlefield, of the Elko Post, dropped in upon us last night. We are always pleased to see him.

Chas. De Young has not gone East, as has been reported.

Discharged.

Chapman, who killed Foley, at Hot Springs, has had his preliminary examination, and the Justice ordered him released from custody. Churchill is a lucky county. It never did have but one murder trial.

Special Rate On Hay.

The Central Pacific Railroad Company on Tuesday last issued a special freight rate over their road, on hay from San Jose and Milpitas, California, to Elko. \$86 20 per car load of ten tons.

Mr. B. F. Sheldon is in from Janesville. From him we learn that Lassen county elected the entire Republican county ticket with the exception of Sheriff. We are sorry to hear that Fred Hines was defeated.

Charlie Becker is happy because he dug up a radish out of his garden, which only lacked two ounces of weighing two and one-half pounds. It can be seen at his saloon.

Five sleepers were attached to Sunday night's overland train; occupied by an excursion party from Denver and Salt Lake.

The mysterious disease is still taking off the cows on the Meadows. Within the past two days Sandy Crocker has lost four. Weston three, Stephens one.

A great many Nevada folks are rushing down to the Sacramento State Fair.

That little fellow, Ward, has commenced her antics.

Mono has levied an assessment of \$1 per share.

FARMER'S HOPE.

Relief From the Grasshopper Scourge at Last—A Grub Worm Destroying them by the Million.

Our readers are familiar with the devastation and ruin brought upon our Sierra Valley farmers by the grasshopper—a curse which comes in clouds and destroys every green thing. Scientific men have examined the matter and various devices have been suggested as a means to rid them of the curse, but all these have failed. Congress appointed a committee which after due investigation, suggested plowing and rolling as a sure means of killing the eggs. But this was not practicable, as there would still remain enough in the inaccessible corners and nooks to destroy the next crop. A discovery has just been made that a grub worm has introduced itself among the eggs and is eating them by wholesale. The eggs are laid in sun-dried dirt cells, half or three-quarters of an inch long and from sixteen to twenty-five eggs are deposited in each one, the top put in and then left until the next season's sun hatches them out. The grub worm is to be found in these cells and examinations made upon samples taken from various portions of the valley, show that they are very general and in every case completely destroy every egg. The farmers are again hopeful and are preparing for planting the next year's crop. We hope they are not doomed to disappointment again, for one of the fairest and most prolific valleys of our Northern country has been for several seasons grasshopper cursed.

Representative American.

Rt. Rev. Bishop Gilbert S. Haven, of the M. E. Church, will lecture here on the above subject on the evening of Wednesday, the 24th inst. He is one of the finest orators in the United States and will delight his audience. Admission of 50 cents will be charged, the receipts to be devoted to settling up the conference year here. The Bishop will then proceed to Winnemucca to hold the annual conference. Carson, as usual, tied to "hog" the conference and to keep the peace the intended change to Reno was dropped. "Dog in the manger."

Leg Broken.

Yesterday morning Harry Brown, who drives Henry Rhue's butcher wagon, had his leg broken by being thrown out. He was coming from Glendale and had a school girl on the seat with him, when the horses became frightened at something and ran away. Both occupants of the wagon were thrown out. The girl was considerably bruised, and the driver has his left leg broken.

THE CALIFORNIA ELECTION!

San Francisco, Sept. 8.—The official count of votes in the city now going on differs in some cases widely from the figures published in the city journals, and is likely to change the result in some instances. Returns from all the counties in the Third Congressional District give McKenna (Republican) 271 majority, over Berry (Democrat.) Some of the counties are partly estimated and the full returns are expected to increase McKenna's majority.

The complete count in this city gives the following result: The Workingmen elect the Mayor, Sheriff, Auditor, Treasurer, Tax Collector, Public Administrator, Surveyor, District Attorney, City and County Attorney, Police Judge, one Supervisor, five members of the Board of Education, and a Railroad Commissioner. The Republicans elect the Assessor, Recorder, Coroner, County Clerk, Superintendent of Streets, Superintendent of Schools, seven members of the Board of Education, and member of the State Board of Equalization and re-elected Congressman Davis. The Superior Judges elected are mostly on the tickets of all parties. Some of the officers are elected by majorities so small that it is possible the official count may result in some changes. It is quite probable that a number of recounts will be demanded. Some of the officers elect have received majorities of less than one hundred, and the figures as at present published differ considerably and do not prove up. Such a discrepancy may be settled by an official count, but the Workingmen profess to believe that there has been crooked work which they will unearth by contest.

The Products of Indigestion. Inability of the stomach to act upon the food is productive of serious and speedy mischief to the entire bodily economy. The circulation languishes and grows poor; leanness, pallor, and a loss of muscular and organic power supervene; but, worse than this, the functions associated with and dependent upon digestion, such as evacuation and the secretion of bile, grow irregular, and the organs whose business it is to discharge those functions become badly disordered. This diseased state of things is more readily and thoroughly rectified with Hostetter's Stomach Bitters than any known medicinal agent. The stomach being invigorated, the life-giving principles of the blood are increased, the system properly nourished, leanness and debility overcome, and the bowels and liver thoroughly and promptly regulated.

YOUNG MEN
WHO MAY BE SUFFERING FROM THE
effects of youthful follies or indiscretion
will do well to avail themselves of this, the
greatest boon ever laid at the altar of suffering
humanity. DR. SPINNEY will guarantee to re-
lieve \$500 for every case of Seminal weakness or
private disease of any kind or character which
he undertakes and fails to cure.
MIDDLE-AGED MEN.
There are many at the age of thirty to sixty
who are troubled with too frequent evacuation
of the bladder, often accompanied by a slight
smarting or burning sensation, and a weakening
of the system in a manner the patient cannot
account for. On examining the urinary deposits
aropy sediment will often be found and some-
times small particles of albumen will appear, or
the color will be of a thin milkish hue, again
changing to a dark and torpid appearance.
There are many men who die of this difficulty
ignorant of the cause, which is the second stage
of seminal weakness. Dr. S. will guarantee a
perfect cure in all such cases, and a healthy
restoration of the genital urinary organs.
